### DAĞITIM YERLERİNE

İlgi : 23.01.2024 tarihli ve E-21817801-305.04.02.02-12930837 sayılı yazımız.

Bilindiği üzere, Avrupa Komisyonu risklere ve uygunsuz durumlara ilişkin yeni bilgileri dikkate alabilmek için (AB) 2019/1793 sayılı Komisyon Uygulama Tüzüğü'nün I ve II sayılı eklerinde yer alan listeleri altı ayı geçmeyecek periyotlarda düzenli bir şekilde gözden geçirmekte ve Komisyon tarafından yapılan güncellemeler hakkında tarafınıza bilgi verilmektedir.

Bakanlığımız Avrupa Birliği ve Dış İlişkiler Genel Müdürlüğünden alınan yazıda; bazı tarım ürünlerinin AB'ye girişinde resmi kontrollerin ve acil tedbirlerin geçici olarak artırılmasına dair (AB) 2019/1793 sayılı Komisyon Uygulama Tüzüğü'nü tadil eden 11 Haziran 2024 tarihli ve (AB) 2024 /1662 sayılı Komisyon Uygulama Tüzüğü'nün, AB Resmi Gazetesi'nin 12 Haziran 2024 tarihli nüshasında yayımlandığı bildirilmektedir.

Söz konusu Tüzük ile;

- Pestisit kalıntısı riski nedeniyle halihazırda (AB) 2019/1793 sayılı Tüzüğün Ek I'inde listelenen Türkiye menşeli **greyfurlar** için yapılacak kimlik ve fiziksel kontrollerin sıklığının, Üye Devletler tarafından yürütülen resmi kontroller ve mevcut bilgilerin, pestisit kalıntıları ile bulaşmaya ilişkin olarak Birlik mevzuatında öngörülen ilgili gerekliliklere uyumda iyileşme olduğunu göstermesi nedeniyle **% 30'dan %20'ye düşürüldüğü,**

- Etilen oksit riski nedeniyle (AB) 2019/1793 sayılı Tüzüğün Ek I'inde listelenen Türkiye menşeli **keçiboynuzu çekirdeği** (harnup), keçiboynuzu çekirdeği tohumu, kabuğu çıkarılmamış, ezilmemiş veya öğütülmemiş ve değiştirilmiş olsun veya olmasın keçiboynuzu çekirdeği veya keçiboynuzu tohumundan elde edilen müsulajlar ve kıvam arttırıcıların, mevcut bilgilerin, Birlik mevzuatında öngörülen ilgili gerekliliklere genel olarak tatmin edici derecede uyum sağlandığını göstermesi nedeniyle **Tüzüğün Ek I'inden çıkarılarak sadece rutin kontrollere tabi kılındığı,**

- Etilen oksit riski nedeniyle (AB) 2019/1793 sayılı Tüzüğün Ek II'sinde listelenen Türkiye menşeli **keçiboynuzu gamı içeren gıda katkı maddeleri karışımlarının,** Üye Devletler tarafından gerçekleştirilen resmi kontroller ve mevcut bilgilerin, Birlik mevzuatında öngörülen ilgili gerekliliklere uygun olarak gelişme sağlandığını göstermesi nedeniyle **Tüzüğün Ek II'sinden çıkarıldığı ve Birliğe girişlerinde %30 oranında belirlenen kimlik ve fiziksel kontrol sıklığıyla söz konusu Tüzüğün Ek I'ine dahil edildiği,**

- Aflatoksin riski nedeniyle (AB) 2019/1793 sayılı Tüzüğün Ek II'sinde yer alan Türkiye menşeli **kuru incir,** karışımları ve kuru incirden üretilen ürünleri üzerinde gerçekleştirilecek kimlik ve fiziksel kontrollerin sıklığının, Üye Devletler tarafından gerçekleştirilen resmi kontroller ve mevcut bilgilerin,

Bu belge, güvenli elektronik imza ile imzalanmıştır.

Birlik mevzuatında öngörülen ilgili gerekliliklere uyumda iyileşme olduğunu göstermesi nedeniyle % 30'dan %20'ye düşürüldüğü,

- Aflatoksin riski nedeniyle (AB) 2019/1793 sayılı Tüzüğün Ek II'sinde yer alan Türkiye menşeli **Antep fıstığı**, karışımları ve Antep fıstığından üretilen ürünler üzerinde gerçekleştirilecek kimlik ve fiziksel kontrollerin sıklığının, Üye Devletler tarafından gerçekleştirilen resmi kontroller ve mevcut bilgilerin, Birlik mevzuatında öngörülen ilgili gerekliliklere uyumda iyileşme olduğunu göstermesi nedeniyle %50'den %30'a düşürüldüğü,

- Aflatoksin riski nedeniyle halihazırda (AB) 2019/1793 sayılı Tüzüğün Ek II'sinde yer alan **Amerika Birleşik Devletleri (ABD) menşeli olan ve Türkiye'den Birliğe gönderilen Antep fıstığı**, karışımları ve türev ürünleri üzerinde yapılacak kimlik ve fiziksel kontrollerin sıklığının, Üye Devletler tarafından gerçekleştirilen resmi kontroller ve mevcut bilgilerin, Birlik mevzuatında öngörülen ilgili gerekliliklere uyumda iyileşme olduğunu göstermesi nedeniyle %50'den %30'a düşürüldüğü,

- Artırılmış resmi kontrollere ve özel koşullara tabi malların daha kesin bir şekilde tanımlanmasına olanak sağlamak için söz konusu Tüzüğün Ek I'inde yer alan Türkiye'den gelen susam tohumlarının CN kodları için TARIC alt bölümü tanımlandığı anlaşılmaktadır.

Bu kapsamda (AB) 2024/1662 sayılı Komisyon Uygulama Tüzüğü ekte yer almakta olup (AB) 2019/1793 sayılı Komisyon Uygulama Tüzüğünde yapılan söz konusu değişiklikler hakkında bilgi edinilmesi ve ülkemizden AB'ye söz konusu ürünlerin ihracatında ilgili ihracatçıların bilgilendirilmesi hususunda gereğini rica ederim.

2024/1662

12.6.2024

**COMMISSION IMPLEMENTING REGULATION (EU) 2024/1662**

**of 11 June 2024**

**amending Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety <sup>(1)</sup>, and in particular Article 53(1), point (b)(ii), thereof,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) <sup>(2)</sup>, and in particular Article 47(2), first subparagraph, point (b), and Article 54(4), first subparagraph, points (a) and (b), thereof,

Whereas:

- (1) Commission Implementing Regulation (EU) 2019/1793 <sup>(3)</sup> lays down rules on the temporary increase of official controls at the entry into the Union on certain consignments of food and feed of non-animal origin from certain third countries listed in Annex I to that Implementing Regulation, and on the imposition of special conditions governing the entry into the Union of certain consignments of food and feed from certain third countries due to the risk of contamination by mycotoxins, including aflatoxins, pesticide residues, pentachlorophenol and dioxins, microbiological contamination, Sudan dyes, Rhodamine B and plant toxins listed in Annex II to that Implementing Regulation.
- (2) Article 12 of Implementing Regulation (EU) 2019/1793 lays down the obligation of the Commission to review at regular intervals not exceeding 6 months the lists set out in the Annexes to that Implementing Regulation, in order to take into account new information related to risks to human health and non-compliance with Union legislation. Such new information includes the data resulting from notifications received through the Rapid Alert System for Food and Feed ('RASFF') established by Regulation (EC) No 178/2002, as well as data and information concerning consignments and the results of the documentary, identity and physical checks carried out by Member States and communicated to the Commission.

<sup>(1)</sup> OJ L 31, 1.2.2002, p. 1, ELI: <http://data.europa.eu/eli/reg/2002/178/oj>.

<sup>(2)</sup> OJ L 95, 7.4.2017, p. 1, ELI: <http://data.europa.eu/eli/reg/2017/625/oj>.

<sup>(3)</sup> Commission Implementing Regulation (EU) 2019/1793 of 22 October 2019 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council and repealing Commission Regulations (EC) No 669/2009, (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660 (OJ L 277, 29.10.2019, p. 89, ELI: [http://data.europa.eu/eli/reg\\_impl/2019/1793/oj](http://data.europa.eu/eli/reg_impl/2019/1793/oj)).

- (3) Recent notifications received through the RASFF indicate the existence of serious direct or indirect risk to human health deriving from certain food or feed. Additionally, official controls performed by the Member States on certain food and feed of non-animal origin in the second semester of 2023 indicate that the lists set out in Annexes I and II to Implementing Regulation (EU) 2019/1793 should be amended in order to protect human health in the Union.
- (4) In relation to consignments of aubergines/eggplants (*Solanum aethiopicum*) from Burkina Faso, data from RASFF notifications and information regarding official controls performed by the Member States indicate the emergence of new risks to human health, due to a possible contamination by pesticide residues. It is therefore necessary to require an increased level of official controls on entries of that commodity from Burkina Faso. That commodity should therefore be included in Annex I to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 20 % of consignments entering the Union.
- (5) Brazil nuts in shell and mixtures of Brazil nuts or dried fruits containing Brazil nuts in shell from Brazil have been subjected to an increased level of official controls due to the risk of contamination by aflatoxins since January 2019. Those commodities have not been imported into the Union for more than 3 years. Therefore, their entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (6) Groundnuts and products produced from groundnuts from Brazil have been subjected to an increased level of official controls due to the risk of contamination by pesticide residues since October 2021. The official controls carried out on those commodities by the Member States indicate an overall satisfactory degree of compliance with the relevant requirements provided for in Union legislation. Therefore, an increased level of official controls is no longer justified for those commodities and their entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (7) Yardlong beans (*Vigna unguiculata* ssp. *sesquipedalis*, *Vigna unguiculata* ssp. *unguiculata*) from the Dominican Republic have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by pesticide residues since January 2010. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. The results of those controls provide evidence that the entry of those foodstuffs into the Union does not constitute a serious risk for human health. Consequently, it is not necessary to continue to provide that each consignment is to be accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005 of the European Parliament and of the Council (\*). However, Member States should continue to carry out official controls to ensure that the current level of compliance is maintained. Therefore, the entry on yardlong beans (*Vigna unguiculata* ssp. *sesquipedalis*, *Vigna unguiculata* ssp. *unguiculata*) from the Dominican Republic in point 1 of Annex II to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex I to that Implementing Regulation, with a frequency of identity and physical checks set, in light of the number of consignments in the last years, at 30 % of consignments entering the Union.
- (8) Hazelnuts, mixtures and products produced from hazelnuts from Georgia have been subjected to an increased level of official controls due to the risk of contamination by aflatoxins since February 2015. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. Therefore, while an increased level of official controls is still appropriate, the level of 30 % of consignments entering the Union is no longer justified for those commodities and the frequency of controls should be decreased to 20 % of consignments entering the Union in Annex I to Implementing Regulation (EU) 2019/1793.
- (9) Groundnuts and products produced from groundnuts from The Gambia have been subjected to an increased level of official controls due to the risk of contamination by aflatoxins since December 2019. Those commodities have not been imported into the Union for more than 3 years. Therefore, their entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.

(\*) Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (OJ L 70, 16.3.2005, p. 1, ELI: <http://data.europa.eu/eli/reg/2005/396/oj>).

- (10) Groundnuts and products produced from groundnuts from Ghana have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by aflatoxins since December 2019. Those commodities have not been imported into the Union for more than 3 years. However, Member States should continue to carry out controls to ensure that the current level of compliance is maintained. Therefore, the entry on groundnuts and products produced from groundnuts from Ghana in point 1 of Annex II to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex I to that Implementing Regulation, maintaining the level of frequency of identity and physical checks at 50 % of consignments entering the Union.
- (11) In relation to consignments of betel leaves (*Piper betle L.*) from India, a high rate of non-compliance with the relevant requirements provided for in Union legislation with respect to contamination by *Salmonella* was detected during official controls performed by the Member States in accordance with Articles 5 and 6 of Implementing Regulation (EU) 2019/1793. It is therefore appropriate to increase the frequency of identity and physical checks to be performed on those consignments entering the Union to 50 % in Annex I to Implementing Regulation (EU) 2019/1793.
- (12) In relation to consignments of drumsticks (*Moringa oleifera*) from India, a high rate of non-compliance with the relevant requirements provided for in Union legislation with respect to contamination by pesticide residues was detected during official controls performed by the Member States in accordance with Articles 5 and 6 of Implementing Regulation (EU) 2019/1793. It is therefore appropriate to increase the frequency of identity and physical checks to be performed on those consignments entering the Union to 30 % in Annex I to Implementing Regulation (EU) 2019/1793.
- (13) Locust beans (carob), locust beans seeds, not decorticated, crushed or ground and mucilages and thickeners, whether or not modified, derived from locust beans or locust beans seeds from India have been subjected to an increased level of official controls due to the risk of contamination by ethylene oxide since December 2021. The official controls carried out on those commodities by the Member States indicate an overall satisfactory degree of compliance with the relevant requirements provided for in Union legislation. Therefore, an increased level of official controls is no longer justified for those commodities and their entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (14) Guar gum from India has been subjected to an increased level of official controls due to the risk of contamination by pentachlorophenol and dioxins since February 2015 and due to the risk of contamination by ethylene oxide since December 2021. The official controls carried out on that commodity by the Member States indicate an overall satisfactory degree of compliance with the relevant requirements provided for in Union legislation. Therefore, an increased level of official controls is no longer justified for that commodity and its entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (15) Mixtures of food additives containing locust bean gum or guar gum, vanilla and cloves (whole fruit, cloves and stems) from India, have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by ethylene oxide since January 2022. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. The results of those controls provide evidence that the entry of those foodstuffs into the Union does not constitute a serious risk for human health. Consequently, it is not necessary to continue to provide that each consignment is to be accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005. However, Member States should continue to carry out controls to ensure that the current level of compliance is maintained. Therefore, the entries on mixtures of food additives containing locust bean gum or guar gum, vanilla and cloves (whole fruit, cloves and stems) from India in point 1 of Annex II to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex I to that Implementing Regulation, with a frequency of identity and physical checks set, in light of the number of consignments in the last years, at 20 % of consignments entering the Union.

- (16) Instant noodles containing spices/seasonings or sauces from South Korea have been subjected to an increased level of official controls due to the risk of contamination by ethylene oxide since December 2021. The official controls carried out on that commodity by the Member States indicate an overall satisfactory degree of compliance with the relevant requirements provided for in Union legislation. Therefore, an increased level of official controls is no longer justified for that commodity and its entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (17) Gotukola (*Centella asiatica*) from Sri Lanka has been subjected to an increased level of official controls due to the risk of contamination by pesticide residues since December 2021. The official controls carried out on that commodity by the Member States show a persistently high rate of non-compliance since the establishment of the increased level of official controls. Those controls provide evidence that the entry of that commodity into the Union constitutes a serious risk for human health. It is therefore necessary, in addition to the increased level of official controls, to provide for special conditions in relation to the importation of gotukola (*Centella asiatica*) from Sri Lanka. In particular, all consignments of gotukola (*Centella asiatica*) from Sri Lanka should be accompanied by an official certificate stating that all the results of sampling and analyses show compliance with Union requirements. The results of sampling and analyses should be attached to that certificate. Therefore, the entry on gotukola (*Centella asiatica*) from Sri Lanka in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to point 1 of Annex II to that Implementing Regulation, with a frequency of identity and physical checks set at 50 % of consignments entering the Union.
- (18) Mixtures of food additives containing locust bean gum from Malaysia have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by ethylene oxide since May 2022. The results of the official controls carried out by the Member States provide evidence that the entry of those foodstuffs into the Union does not constitute a serious risk for human health. Consequently, it is not necessary to continue to provide that each consignment is to be accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005. However, Member States should continue to carry out controls to ensure that the current level of compliance is maintained. Therefore, the entry on mixtures of food additives containing locust bean gum from Malaysia in point 1 of Annex II to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex I to that Implementing Regulation, with a frequency of identity and physical checks set, in light of the number of consignments in the last years, at 30 % of consignments entering the Union.
- (19) Spice mixes from Pakistan have been subjected to an increased level of official controls due to the risk of contamination by aflatoxins since May 2020. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. Therefore, while an increased level of official controls is still appropriate, the level of 50 % of consignments entering the Union is no longer justified for that commodity and the frequency of controls should be decreased to 30 % of consignments entering the Union in Annex I to Implementing Regulation (EU) 2019/1793.
- (20) Peppers of the genus *Capsicum* (other than sweet) from Pakistan have been subjected to an increased level of official controls due to the risk of contamination by pesticide residues since January 2019. That commodity has not been imported into the Union for more than 3 years. Therefore, its entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (21) Groundnuts and products produced from groundnuts from Sudan have been subjected to an increased level of official controls due to the risk of contamination by aflatoxins since January 2019. Those commodities have not been imported into the Union for more than 3 years. Therefore, their entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (22) Grapefruits from Türkiye have been subjected to an increased level of official controls due to the risk of contamination by pesticide residues since December 2021. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. Therefore, while an increased level of official controls is still appropriate, the level of 30 % of consignments entering the Union is no longer justified for that commodity and the frequency of controls should be decreased to 20 % of consignments entering the Union in Annex I to Implementing Regulation (EU) 2019/1793.

- (23) Locust beans (carob), locust beans seeds, not decorticated, crushed or ground and mucilages and thickeners, whether or not modified, derived from locust beans or locust beans seeds from Türkiye have been subjected to an increased level of official controls due to the risk of contamination by ethylene oxide since December 2021. The official controls carried out on those commodities by the Member States indicate an overall satisfactory degree of compliance with the relevant requirements provided for in Union legislation. Therefore, an increased level of official controls is no longer justified for those commodities and their entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (24) Mixtures of food additives containing locust bean gum from Türkiye have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by ethylene oxide since May 2022. The results of the official controls carried out by the Member States provide evidence that the entry of those foodstuffs into the Union does not constitute a serious risk for human health. Consequently, it is not necessary to continue to provide that each consignment is to be accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005. However, Member States should continue to carry out controls to ensure that the current level of compliance is maintained. Therefore, the entry on mixtures of food additives containing locust bean gum from Türkiye in point 1 of Annex II to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex I to that Implementing Regulation, with a frequency of identity and physical checks set, in light of the number of consignments in the last years, at 30 % of consignments entering the Union.
- (25) Peppers of the genus *Capsicum* (other than sweet) from Vietnam have been subjected to an increased level of official controls due to the risk of contamination by pesticide residues since January 2013. The official controls carried out on that commodity by the Member States show a persistent high rate of non-compliance since the establishment of the increased level of official controls. Those controls provide evidence that the entry of that commodity into the Union constitutes a serious risk for human health. It is therefore necessary, in addition to the increased level of official controls, to provide for special conditions in relation to the importation of peppers of the genus *Capsicum* (other than sweet) from Vietnam. In particular, all consignments of peppers of the genus *Capsicum* (other than sweet) from Vietnam should be accompanied by an official certificate stating that all the results of sampling and analyses show compliance with Union requirements. The results of sampling and analyses should be attached to that certificate. Therefore, the entry on peppers of the genus *Capsicum* (other than sweet) from Vietnam in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex II to that Implementing Regulation, with a frequency of identity and physical checks set at 50 % of consignments entering the Union.
- (26) Instant noodles containing spices/seasonings or sauces from Vietnam have been subjected to an increased level of official controls due to the risk of contamination by ethylene oxide since December 2021. The official controls carried out on that commodity by the Member States indicate an overall satisfactory degree of compliance with the relevant requirements provided for in Union legislation. Therefore, an increased level of official controls is no longer justified for that commodity and its entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (27) Pepper of the genus *Piper*, dried or crushed or ground fruit of the genus *Capsicum* or of the genus *Pimenta*, ginger, saffron, turmeric (curcuma), thyme, bay leaves, curry and other spices from Ethiopia have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by aflatoxins since December 2019. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. Therefore, while an increased level of official controls is still appropriate, the level of 50 % of consignments entering the Union is no longer justified for those commodities and the frequency of controls should be decreased to 30 % of consignments entering the Union in point 1 of Annex II to Implementing Regulation (EU) 2019/1793.
- (28) In relation to consignments of nutmeg (*Myristica fragrans*) from Indonesia, a high rate of non-compliance with the relevant requirements provided for in Union legislation with respect to contamination by aflatoxins was detected during official controls performed by the Member States in accordance with Articles 7 and 8 of Implementing Regulation (EU) 2019/1793. It is therefore appropriate to increase the frequency of identity and physical checks to be performed on those consignments entering the Union to 50 % in point 1 of Annex II to Implementing Regulation (EU) 2019/1793.

- (29) In relation to consignments of nutmeg, mace and cardamoms from India, a high rate of non-compliance with the relevant requirements provided for in Union legislation with respect to contamination by ethylene oxide was detected during official controls performed by the Member States in accordance with Articles 7 and 8 of Implementing Regulation (EU) 2019/1793. It is therefore appropriate to increase the frequency of identity and physical checks to be performed on those consignments entering the Union to 30 % in point 1 of Annex II to Implementing Regulation (EU) 2019/1793.
- (30) Dried figs, mixtures and products produced from dried figs from Türkiye have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by aflatoxins since August 2014. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. Therefore, while an increased level of official controls is still appropriate, the level of 30 % of consignments entering the Union is no longer justified for those commodities and the frequency of controls should be decreased to 20 % of consignments entering the Union in point 1 of Annex II to Implementing Regulation (EU) 2019/1793.
- (31) Pistachios, mixtures and products produced from pistachios from Türkiye have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by aflatoxins since August 2014. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. Therefore, while an increased level of official controls is still appropriate, the level of 50 % of consignments entering the Union is no longer justified for those commodities and the frequency of controls should be decreased to 30 % of consignments entering the Union in point 1 of Annex II to Implementing Regulation (EU) 2019/1793.
- (32) In relation to consignments of *Sesamum* seeds from Uganda, a high rate of non-compliance with the relevant requirements provided for in Union legislation with respect to contamination by *Salmonella* was detected during official controls performed by the Member States in accordance with Articles 7 and 8 of Implementing Regulation (EU) 2019/1793. It is therefore appropriate to increase the frequency of identity and physical checks to be performed on those consignments entering the Union to 30 % in point 1 of Annex II to Implementing Regulation (EU) 2019/1793.
- (33) In relation to consignments of pitahaya (dragon fruit) from Vietnam, a high rate of non-compliance with the relevant requirements provided for in Union legislation with respect to contamination by pesticide residues was detected during official controls performed by the Member States in accordance with Articles 7 and 8 of Implementing Regulation (EU) 2019/1793. It is therefore appropriate to increase the frequency of identity and physical checks to be performed on those consignments entering the Union to 30 % in point 1 of Annex II to Implementing Regulation (EU) 2019/1793.
- (34) Pistachios, mixtures and products produced from pistachios originating in the United States and dispatched to the Union from Türkiye have been subjected to an increased level of official controls and to special conditions at their entry into the Union due to the risk of contamination by aflatoxins since June 2023. The official controls carried out by the Member States show improvement in compliance with the relevant requirements provided for in Union legislation. Therefore, while an increased level of official controls is still appropriate, the level of 50 % of consignments entering the Union is no longer justified for those commodities and the frequency of controls should be decreased to 30 % of consignments entering the Union in point 3 of Annex II to Implementing Regulation (EU) 2019/1793.
- (35) To allow for a more precise identification of commodities subject to increased official controls and special conditions, it is appropriate to specify the TARIC sub-division for several CN codes in entries for tahini and halva from *Sesamum* seeds from Syria and *Sesamum* seeds from Türkiye in Annex I to Implementing Regulation (EU) 2019/1793, and for aubergines (*Solanum melongena*) from the Dominican Republic and *Sesamum* seeds from Ethiopia, India, Nigeria, Sudan and Uganda in Annex II to that Implementing Regulation.

- (36) In order to ensure legal certainty for the entry into the Union of consignments that have already been dispatched from the country of origin or from another third country if that country is different from the country of origin, when this Regulation enters into force, it is appropriate to provide for a transitional period for consignments of gotukola (*Centella asiatica*) from Sri Lanka and peppers of the genus *Capsicum* (other than sweet) from Vietnam, which are not accompanied by the results of sampling and analyses and an official certificate. Public health protection is ensured for those consignments, since those commodities are subject to identity and physical checks at a frequency of 50 % of consignments entering the Union.
- (37) Implementing Regulation (EU) 2019/1793 should therefore be amended accordingly.
- (38) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

#### Article 1

Implementing Regulation (EU) 2019/1793 is amended as follows:

- (1) Article 14 is replaced by the following:

‘Article 14

#### **Transitional periods**

Consignments of gotukola (*Centella asiatica*) from Sri Lanka and peppers of the genus *Capsicum* (other than sweet) from Vietnam, which have been dispatched from the country of origin, or from another third country if that country is different from the country of origin, before the date of entry into force of Commission Implementing Regulation (EU) 2024/1662 (\*), may enter the Union until 2 September 2024 without being accompanied by the results of sampling and analyses and the official certificate provided for in Articles 10 and 11.

(\*) Commission Implementing Regulation (EU) 2024/1662 of 11 June 2024 amending Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council (OJ L, 2024/1662, 12.6.2024, ELI: [http://data.europa.eu/eli/reg\\_impl/2024/1662/oj](http://data.europa.eu/eli/reg_impl/2024/1662/oj));

- (2) Annexes I and II are replaced by the text set out in the Annex to this Regulation.

#### Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 11 June 2024.

For the Commission  
The President  
Ursula VON DER LEYEN

## ANNEX

## 'ANNEX I

**Food and feed of non-animal origin from certain third countries subject to a temporary increase of official controls at border control posts and control points**

<sup>(1)</sup> Where only certain products under any CN code are required to be examined, the CN code is marked “ex”.

<sup>(2)</sup> The sampling and the analyses shall be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III.

<sup>(3)</sup> Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29(2) of Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (OJ L 70, 16.3.2005, p. 1, ELI: <http://data.europa.eu/eli/reg/2005/396/oj>) that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in/on products of plant origin only).

<sup>(4)</sup> The sampling and the analyses shall be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III.

<sup>(5)</sup> Residues of Tolfenpyrad.

<sup>(6)</sup> Residues of Dicofol (sum of p, p' and o,p' isomers), Dinotefuran, Folpet, Prochloraz (sum of prochloraz and its metabolites containing the 2,4,6-trichlorophenol moiety expressed as prochloraz), Thiophanate-methyl and Triforine.

<sup>(7)</sup> Residues of Diafenthiuron.

<sup>(8)</sup> Residues of Formetanate (sum of formetanate and its salts expressed as formetanate (hydrochloride)), Prothiofos and Triforine.

<sup>(9)</sup> Residues of Prochloraz.

<sup>(10)</sup> Residues of Diafenthiuron, Formetanate (sum of formetanate and its salts expressed as formetanate (hydrochloride)) and Thiophanate-methyl.

<sup>(11)</sup> Foodstuffs containing or consisting of betel leaves (*Piper betle*) including, but not limited to, those declared under CN code 1404 90 00.

<sup>(12)</sup> Residues of Amitraz (amitraz including the metabolites containing the 2,4-dimethylaniline moiety expressed as amitraz), Diafenthiuron, Dicofol (sum of p, p' and o,p' isomers) and Dithiocarbamates (dithiocarbamates expressed as CS<sub>2</sub>, including maneb, mancozeb, metiram, propineb, thiram and ziram).

<sup>(13)</sup> Residues of Ethylene Oxide (sum of ethylene oxide and 2-chloro-ethanol, expressed as ethylene oxide). In case of food additives, the applicable maximum residue level (MRL) is 0,1 mg/kg (limit of quantification (LOQ)). Prohibition of use of Ethylene Oxide provided for in Commission Regulation (EU) No 231/2012 of 9 March 2012 laying down specifications for food additives listed in Annexes II and III to Regulation (EC) No 1333/2008 of the European Parliament and of the Council (OJ L 83, 22.3.2012, p. 1, ELI: <http://data.europa.eu/eli/reg/2012/231/oj>).

<sup>(14)</sup> For the purposes of this Annex, “Sudan dyes” refers to the following chemical substances: (i) Sudan I (CAS Number 842-07-9); (ii) Sudan II (CAS Number 3118-97-6); (iii) Sudan III (CAS Number 85-86-9); (iv) Scarlet Red or Sudan IV (CAS Number 85-83-6). Residues of Sudan dyes, using a method of analysis with an LOQ, shall be lower than 0,5 mg/kg.

<sup>(15)</sup> Hereinafter understood as the State of Israel, excluding the territories under the administration of the State of Israel after 5 June 1967, namely the Golan Heights, the Gaza Strip, East Jerusalem and the rest of the West Bank.

<sup>(16)</sup> Residues of Acephate.

## ANNEX II

**Food and feed from certain third countries subject to special conditions for the entry into the Union due to contamination risk by mycotoxins, including aflatoxins, pesticide residues, microbiological contamination, Sudan dyes, Rhodamine B and plant toxins**

## 1. FOOD AND FEED OF NON-ANIMAL ORIGIN REFERRED TO IN ARTICLE 1(1), POINT (b)(i)

<sup>(1)</sup> Where only certain products under any CN code are required to be examined, the CN code is marked “ex”.

<sup>(2)</sup> The sampling and the analyses shall be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III.

<sup>(3)</sup> Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29(2) of Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (OJ L 70, 16.3.2005, p. 1, ELI: <http://data.europa.eu/eli/reg/2005/396/oj>) that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in/on products of plant origin only).

<sup>(4)</sup> Residues of Carbofuran.

<sup>(5)</sup> The sampling and the analyses shall be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III.

<sup>(6)</sup> Residues of Dithiocarbamates (dithiocarbamates expressed as CS<sub>2</sub>, including maneb, mancozeb, metiram, propineb, thiram and ziram) and Metrafenone.

<sup>(7)</sup> Residues of Dithiocarbamates (dithiocarbamates expressed as CS<sub>2</sub>, including maneb, mancozeb, metiram, propineb, thiram and ziram), Phenthoate and Quinalphos.

<sup>(8)</sup> Foodstuffs containing or consisting of betel leaves (*Piper betle*) including, but not limited to, those declared under CN code 1404 90 00.

<sup>(9)</sup> Residues of Ethylene Oxide (sum of ethylene oxide and 2-chloro-ethanol, expressed as ethylene oxide). In case of food additives, the applicable MRL is 0.1 mg/kg (LOQ). Prohibition of use of Ethylene Oxide provided for in Commission Regulation (EU) No 231/2012 of 9 March 2012 laying down specifications for food additives listed in Annexes II and III to Regulation (EC) No 1333/2008 of the European Parliament and of the Council (OJ L 83, 22.3.2012, p. 1, ELI: <http://data.europa.eu/eli/reg/2012/231/oj>).

<sup>(10)</sup> For the purposes of this Annex, “Sudan dyes” refers to the following chemical substances: (i) Sudan I (CAS Number 842-07-9); (ii) Sudan II (CAS Number 3118-97-6); (iii) Sudan III (CAS Number 85-86-9); (iv) Scarlet Red or Sudan IV (CAS Number 85-83-6). Residues of Sudan dyes, using a method of analysis with an LOQ, shall be lower than 0,5 mg/kg.

<sup>(11)</sup> Residues of Dithiocarbamates (dithiocarbamates expressed as CS<sub>2</sub>, including maneb, mancozeb, metiram, propineb, thiram and ziram), Phenthoate and Quinalphos.

<sup>(12)</sup> Residues of Acephate.

<sup>(13)</sup> Both finished products and raw materials containing any botanicals intended for the production of food supplements declared under CN codes mentioned in column “CN code”.

- (<sup>14</sup>) For purpose of this Annex, residues of Rhodamine B, using a method of analysis with an LOQ, shall be lower than 0,1 mg/kg.
- (<sup>15</sup>) "Unprocessed products" as defined in Regulation (EC) No 852/2004 of the European Parliament and of the Council of 29 April 2004 on the hygiene of foodstuffs (OJ L 139, 30.4.2004, p. 1, ELI: <http://data.europa.eu/eli/reg/2004/852/oj>).
- (<sup>16</sup>) "Placing on the market" and "final consumer" as defined in Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety (OJ L 31, 1.2.2002, p. 1, ELI: <http://data.europa.eu/eli/reg/2002/178/oj>).
