Sayın üyemiz,

Birleşik Krallık (BK) tarafından belirli çelik ürünlerine uygulanan korunma önlemi kapsamında BK Ticaret Politikası Önlemleri Otoritesi (TRA) tarafından 1. kategoride sınıflandırılan ürünler için piyasadaki değişimler sebebiyle tarife kontenjanı miktarlarının yeniden incelenmesi (TRQ review) ve söz konusu kategorideki önlemin askıya alınmasının gerekli olup olmadığının belirlenmesi (suspension review) amacıyla iki ayrı gözden geçirme soruşturması yürütüldüğü, ilgede kayıtlı sirkülerimiz ile duyurulmuştur.

Bu defa, T.C. Ticaret Bakanlığı İthalat Genel Müdürlüğünden alınan 17/10/2024 tarih 101973908 sayılı yazıda;

Bu çerçevede, tarife kontenjanı miktarlarının yeniden incelendiği gözden geçirme soruşturmasının sonuçlandığı, nihai karar BK tarafından Dünya Ticaret Örgütü'ne yapılan bildirimle yayımlanmış olup, bildirimde;

1. kategorinin 1A ve 1B olmak üzere ikiye ayrılmasına,

1. kategori tarife kontenjanlarının 1A kategorisine taşınarak aynı şekilde uygulanmaya devam etmesine,

1A kategorisine ek olarak, yalnızca üretimde kullanılmak üzere (downstream) ithal edilmesine izin verilecek bir 1B kategorisi yaratılmasına,

1B kategorisinin global kota olarak belirlenerek ülke bazlı bir ayırım yapılmamakla birlikte, söz konusu kategoriden bir ülkenin en fazla %40 oranında faydalanabilmesine,

1B kategorisindeki tarife kontenjanı miktarının 1A kategorisindeki toplam miktarın %132 fazlası olarak belirlenmesine karar verildiği,

Öte yandan, bahse konu kategorideki önlemin askıya alınmasının gerekli olup olmadığının incelendiği gözden geçirme soruşturması devam etmekte olduğu, bahse konu gözden geçirme kapsamında TRA tarafından Kasım 2024'te bir bulgu raporu yayımlanmasının ardından Aralık 2024'te ise soruşturmanın tamamlanması planlandığı ifade edilmektedir.

**NOTIFICATION PURSUANT TO ARTICLE 9.1, FOOTNOTE 2
OF THE AGREEMENT ON SAFEGUARDS**

UNITED KINGDOM

Certain steel products

Supplement

The following communication, dated and received on 25 September 2024, is being circulated at the request of the delegation of the United Kingdom.

Pursuant to Articles 12 and 9.1 and its footnote of the WTO Agreement on Safeguards, the United Kingdom notifies that the Secretary of State for Business and Trade accepted the Trade Remedies Authority's (TRA) final determination and recommendation to adjust the tariff rate quota (TRQ) applying to imports of product category 1, non-alloy and other alloy hot-rolled sheet and strip, under the safeguard measure on certain steel products, with effect from 1 October 2024.

By way of background, on 9 February 2024, the TRA initiated a TRQ review following applications from industry which indicated a change in circumstances and market conditions, as set out in document [G/SG/N/10/GBR/1/Suppl.15](#).

On 9 August 2024, the TRA published its Statement of Intended Final Determination (SIFD), in which it proposed adjusting the quota amount and allocations, as set out in document [G/SG/N/10/GBR/1/Suppl.18-G/SG/N/11/GBR/1/Suppl.18](#). This was open to comment from interested parties until 19 August 2024.

The TRA considered further submissions in response to the SIFD and made its final determination and recommendation to the Secretary of State accordingly, as outlined below.

More details on the TRQ review, including the TRA's Final Determination¹, can be found on the Trade Remedies Service platform at: <https://www.trade-remedies.service.gov.uk/public/case/TQ0052/#public-file>.

The suspension review of category 1 also announced on 9 February 2024 and notified in document [G/SG/N/10/GBR/1/Suppl.15](#) is ongoing separately. Details of this review can be found on the Trade Remedies Service platform at: <https://www.trade-remedies.service.gov.uk/public/case/SS0051/#public-file>

The UK welcomes bilateral engagement with Members on the matter. We invite interested Members to reach out to the UK Mission in the first instance.

¹ The TRA's Final Determination is also available from the WTO Secretariat. To consult it, please contact Ms Anne Richards of the Rules Division (anne.richards@wto.org).

1. Provide the precise description of the product(s) involved

The goods subject to this TRQ review are:

Product Number	Product Category	Commodity Codes
1	Non-alloy and other alloy hot-rolled sheets and strips	72081000, 72082500, 72082600, 72082700, 72083600, 72083700, 72083800, 72083900, 72084000, 72085210, 72085299, 72085310, 72085390, 72085400, 72111300, 72111400, 72111900, 72126000, 72251910, 72253010, 72253030, 72253090, 72254015, 72254090, 72261910, 72269120, 72269191, 72269199

2. Provide precise description of the adjustments

The TRA established that there has been a change in circumstances relevant to the application of the safeguard TRQ with respect to category 1 as a result of changes at Tata Steel UK's site in Port Talbot. The TRA found evidence that there has been a change in demand for the import of category 1 steel products used for downstream processing into other steel products. The TRA found that the quota, specifically the residual quota, has been repeatedly exhausted across four consecutive quarters, which has had an adverse impact on UK importers, stockists and distributors.

The TRA recommended that the Secretary of State should vary the category 1 TRQ by amending the existing category 1 quota to form categories 1A and 1B, varying the quota allocation for category 1B to create a global quota for downstream processing with a cap on exports from any single country of 40%, and increasing the quota amount for category 1B by 132%. The category 1A quotas would maintain existing amounts and allocations. This was the TRA's preferred recommendation.

The TRA also offered a possible alternative option to duplicate the existing category 1 quotas exactly as outlined above, but without a cap on exports from any single country.

The Secretary of State accepted the TRA's preferred recommendation.

For further information on the change in circumstances, please consult Section C: Assessment in the TRA's Final Determination.

The quota amounts and allocations can be found in the Annex.

3. Provide proposed date or actual date of introduction of the adjustments

The adjustments enter into effect on 1 October 2024 (at the start of quarter 2 of the quota management year).
