5	BIOFIAL SA	CONSTRUCTION INDUSTRY - HYDRAULIC LIFT SYSTEMS	FOTEINI	CHATZIEFSTRATIOU	www.biofial.gr	BIOFIAL constitutes a fifty-years-old, well-organized, medium-sized industrial manufacturing enterprise, which exclusively produces hydraulic lift products. The company has its headquarters in a 4,000m2 plant and its branch in a 10,000m2 plant, both privately owned, in Thessaloniki The applications of the hydraulic products vary relatively to the use that the customers seek and therefore there is a wide range of products. The age-long experience, the excellent know-how, the precise design, and the technological equipment, distinguished BIOFIAL in the field of exclusive production of hydraulics in the Greek, as well the international market. The last 30 years develops an intensive export activity all over the world. About 70-75% of its production is exported directly in more than 50 countries (such as Germany, India, U.K., Argentina, Turkey, Israel, Sweden, New Zealand, USA, Oman, etc). BIOFIAL has the capability to respond with flexibility to customers' demands. Thus, its production is separated in the standardized products and the made-to-order products for specialized cases, according to the use the customer aims at. BIOFIAL is certified with the quality system ISO 9001 from 1998. Also, it has been awarded with the bronze award as an Industrial Company in the Greek Export Awards of 2015 year.	BIOFIAL is a manufacturing industry of hydraulic lifting systems, mainly for elevator sector, but also for any industrial application of the economy. BIOFIAL is the only Greek company with the ability to manufacture hydraulic cylinders and hydraulic systems for the entire range of hydraulic applications, which differentiates it from the rest of the companies that produce or import and sell part of this wide range of products. In other words, it has the ability to provide solutions to applications where standard production lines fail. Its products are divided into part-products, which are hydraulic products integrated into machines and constructions, but also final products, ready for installation and use. Also, BIOFIAL has the capability to respond with flexibility to customers' demands. Thus, its production is separated in the standardized products and the made-to-order products for specialized cases, according to the use the customer aims at.	Yes

12	Papastratos SA - affiliate of Philip Morris Intl.	Tobacco Manufacturer	Ioannis	Athanasiadis	https://www.papastratosmazi.gr/	Papastratos, an affiliate of Philip Morris International (PMI), has been a leader in the production and commercialization of cigarettes and smoke-free tobacco products in Greece for the past nine decades. In 2017, the company turned the page in its long history and, with a significant €300-million investment, transformed its factory in Aspropyrgos into an exclusive heated tobacco sticks production unit for IQOS, the first innovative PMI product which potentially holds a lower-risk than that of cigarettes. Papastratos' corporate course is inextricably linked to the evolution of the industry, the development of the country's economy and the support towards society. In April 2019, the US Food and Drug Administration (FDA) authorized the marketing of IQOS in U.S.A, while in July 2020 the FDA approved IQOS as a modified risk tobacco product, suitable for promoting public health. By September 2023, approximately 27.4 million adult smokers around the world and more than 500,000 in Greece have chosen this new technology, available in more than 80 countries. In June 2021, on Papastratos' 90th anniversary, the company announced its Sustainable Development strategy for the next five years. At the same time, it also announced its new large €125-million investment in its factory in Aspropyrgos which has a strong export activity. In total, Papastratos has invested more than 700 million since 2017. By continuously investing in science and new technologies, Papastratos aims to create value, both for the company and its people and for the environment and society. Its extensive Social Responsibility program, the multiple awards as Best Workplace and Top Employer, its achievement as the first Greek company to acquire the Equal Salary certification and the first "Smoke-Free" company in Greece prove that its Sustainable Development strategy is at the forefront of its business activities.	Papastratos is a Smoke Free products manufacturer	Yes

15	HELLENIC FINE OILS S.A.	Food (Edible Oils)	Dimitrios	Dambassinas	(a) www.hfo.gr , (b) www.soya-mills.gr	Hellenic Fine Oils SA ("HFO") - a subsidiary of the Soya Mills Group (www.soya-mills.gr) was founded in 2000. It is one of the leading companies in the food sector in Greece. It is active in the production and bottling of olive and seed oils, as well as in the trade of delicatessen products. It is a purely Greek family-run business that maintains its structure and values in a highly competitive environment. Thanks to its structure, the company is highly adaptable to new emerging needs and changing market conditions. On the other hand, its production capacity as well as its organization make it possible to fulfill large orders, multiple SKUs and customer requirements. The capacity of its bottling unit is 30,000 tonnes per year. HFO has a strong presence in both retail wholesale sectors, as well as in the HO.RE.CA industry, offering branded and private label products. The fact that HFO is one of the primary suppliers of private label products to key-account chains in Greece and abroad demonstrates both its extensive production capacity as well as its solvency & reliability. HFO exports its products to 45 countries on 5 continents.	Production and bottling of edible oils (seed oils and olive oils) and delicatessen products, inter alia: - Soybean Oil - Sunflower Oil - Corn Oil - Rapeseed Oil - Extra Virgin Olive Oil - Organic Extra Virgin Olive Oil - Phenolic Extra Virgin Olive Oil - Virgin Olive Oil - Pure Olive Oil - Pomace Olive Oil	No
16	DOMAINE COSTA LAZARIDI SA	WINERY - DISTILLERY	GEORGIOS	ZACHARIS	www.domaine-lazaridi.gr	Domaine Costa Lazaridi was founded in 1992 in Drama. It evolved from a small company that produced small quantities of wine. Since then, the company has expanded its product portfolio which now includes a wide variety of wines, grape distillates and aged vinegars, also known as balsamic vinegars. Starting in 1979 with a small 10-hectare vineyard, we now manage 300 hectares of private vineyards with the finest Greek and international grape varieties. In order to guarantee the best possible quality of the grapes, we only generate low yields. The winery consists of various buildings on an area of 18,000 square meters. It has modern equipment for winemaking and rooms that are available for seminars and conferences. The estate has over 200 permanent employees and a large number of seasonal workers. We also cooperate with some of the best-known consultants in all areas of our production. In order for the products to remain competitive internationally, great value was placed on exports right from the start. Starting with Germany, today we export to the USA, Canada, China, Brazil, Australia and various other countries in Europe. Our second establishment, Oenotria Land, was founded in Kapandriti, Attica. It is a building complex with multifunctional capabilities on an area of 10500 square meters. Visitors have access to the wine museum and an aging cellar in which award-winning wines and distillates can be tasted.	We produce wines under the brands Amethystos, Chateau Julia, Domaine Costa Lazaridi and Oenotria Land, grape based distills [donko tsipouro and Methexis, Idoniko Ouzo and a wide range of balsamic vinegars Aceto Botanico. 25	A. PITENIS BROS SA	GOURMET FOOD IND.	KONSTANTINOS	ALEXAKIS	www.pitenis.gr	Staff All our company employees play an important and decisive part in its success. We encourage personal initiative. Main motive is success in all levels of company's structure. We want our values to characterize our way of doing business. To achieve our aim, all our employees are being appointed, trained and get rewarded according to these values. Basic product characteristics are traditional taste and production techniques as well as high nutritional value and quality. We always face our sector's challenges looking for innovative ways to improve our products and services. Our aim is to provide our clients with the highest possible level of service and product quality, never forgetting that this is the main key to our success. Flexibility, innovative way of doing business and experience, lead to the creation of strong bonds with our clients. The selection of our suppliers always happen with strict quality standards criteria. These include certified quality according to our requirements, insured long term coverage of our needs and local geographic characteristics. «Basic target of our company is the consolidation, our products, but also of Greek products in general, in the minds of consumers, as products of high quality and nutritional value with very high "value for money". The Greek land pure raw materials, combined with the drive of excellence, the know how and modern marketing techniques, create an unrivaled combination!»	Capturing market's messages fast and at their early stages, Pitenis family invested on the combination high quality - traditional taste, using the most modern production techniques, achieving International certifications (ISO 22000:2005, HACCP, BRC, IFS, HALAL, FDA), and utilizing pure raw materials, 97% of which come from the Greek land. Raw materials are being examined in our Laboratory before being accepted in the production process, ensuring their quality, specifications accordance and their suitability. It must be noted that a remarkable quantity of raw materials every year is being denied and returned to the supplier. Our efforts are being focused on substituting chemical substances and additives, which are broadly used in industrial Food production, with natural - healthy materials. Since 2005, the company implements a plan of cooperating with employees for the production of farming raw materials. These materials are being farmed on their land with company's control, aiming at absolutely safe products that abide with company's specifications.	No
26	Crater EE	Olive oil Industry & art dealers	Konstantina	Zarali	under contraction	An Economist (Konstantina Zarali), a Veterinarian (Sotiria Baka) and a Visual Artist (Theodore Oikonomidis) are the souls of Crater E.E., of a new company established in Limenaria, on Thassos island (2021). The main idea was to create a space around olive oil (olive oil packaging) with cultural perspectives. In our premises (by architect Ilias Pitios, Athens) the visitor is having the chance of enjoying an olive oil degustation (with olive oil of our own organic brand but other brands, too), have a rest under the shadow of the olive trees or have interaction with other visitors or ourselves in terms of relational aesthetics. Artworks of Greek contemporary artists are everywhere, small concerts or supper clubs are organized too, together with the project "The breakfast club". The showroom offers a variety of olive products (food or cosmetics), memorabilia, ceramics, paintings and artworks.	packaging olive oil of our own brand and for third parties. We respect all regulations around food, we have all the necessary permissions, ISO standards and a developing sales network which demands bigger quantities of olive oil (interested buying from Turkey?) selling olive oil products inland & foreign countries (wholesale & retail) offering consult and brand services to other companies hosting events, business meetings, retreats, residences cultural events, shows, exhibitions art consult & art dealing services - helping in investing in art business - looking for Turkish contemporary artists innovative touristic projects like "The breakfast club", traditional, hay baskets full with special and high quality, local products which can create a Mediterranean breakfast or pick-nick, (special for accommodations without breakfast)	No

41	NVISIONIST	LIMITED LIABILITY COMPANY SPECIALISED SYSTEMS & SOFTWARE SERVICE PROVIDER	VASSILEIOS	ORFANOS	www.nvisionist.com	At nvisionist we design, create and offer innovative solutions and services that contribute to the quality of life and conservation of resources. nvisionist is a high-tech start-up company specializing in applied digital technology solutions based on Artificial Intelligence (AI) and Machine Learning, designing and producing products and services for the renewable energy sector for the benefit of all: the environment, biodiversity, local communities, green and responsible entrepreneurship, business efficiency and sustainable development. The company's expertise also covers the development and maintenance of Information and Communication Technology projects, Machine Vision applications and Sustainable Energy projects. Its staff has a long history of successful projects in various sectors and markets, mainly in the digital technology and renewable energy sectors in Greece and abroad. Digital Europe this year has included nvisionist in the list of the ten European future unicorns. Moreover, nvisionist's robust financial foundation, bolstered by significant funding from the European Investment Bank and its strategic partnership with the largest energy company in Greece DEH public power corporation, positions it perfectly for worldwide expansion and further advancements in industrial research and development.	At nvisionist, we are a leader in eco-friendly innovation. Our flagship product, nrbird®, exemplifies this commitment. It is an advanced bird detection and monitoring system designed to significantly reduce bird collisions with wind turbines, thereby aiding in both nature conservation and global expansion of wind produced green energy. nrbird® is an innovative, integrated solution that is at the cutting edge of global technology, with significant benefits for the environment, winning major awards abroad. It is applied to onshore and offshore wind farms, for bird monitoring and integrates state-of-the-art equipment, software as well as an Artificial Intelligence and Machine Learning platform. It relies on specialised algorithms, based on which the system detects and identifies birds flying dangerously close to the turbines, analyses their path, activates speakers with sounds to drive them away from the turbines and, if they do not fly away, stops the turbine until they are safe. This innovative solution is already operational in wind farms across Greece, Spain, and France, serving notable clients like Enel Green Power, Iberdrola ROKAS, Terna energy where we have implemented the largest contract of its kind worldwide.	Yes
42	HOBSDO TECHNOLOGY I.K.E.	Technology & Real Estate	Petros	Siachos	https://www.ektimiseto.gr/	The company is called upon to solve the problem of digital transformation of the real estate market. In general, there is a shortage of real proptech solutions. In most of the countries of the Balkans and central Europe, real estate markets work exactly the same way they did 20 years ago. The company is called upon to utilize the knowledge and power that its executives have in cutting edge technologies (Machine Learning, AI, Data Science). Digital transformation can be achieved by using technology to make better decision-making based on the science of data for use by government services (B2G), by corporate users (B2B) and by ordinary users (B2C). These actions will bring technological development and democratization in the sector, thorough information to people about their property with the use of the data science, simplification of daily tasks and targeted lead generation.	The company, started by solving the problem of thoroughly informing users about their property using the science of data. Thus, it initially developed the tool ektimiseto.gr which then evolved into a tool that implements targeted lead generation and simplifies daily tasks and Hobtido Insights. Ektimiseto.gr is the platform that helps the user to find out the commercial value of his property quickly and for free, by filling out a simple attribute form. This value is derived by the use of cutting-edge Machine Learning technology and is based on thousands of data. In addition to the estimation, if the user wishes so, the platform enables him to arrange the sale, purchase, rental and a multitude of other services related to the property he desires, in the most favorable conditions. Ektimiseto.gr has been used by more than 40,000 people during 2023. The company also provides technological and consulting services in real estate and construction companies. Hobtido Insights is a dashboard that provides real-time insights about the real estate market, using a large database which dynamically changes following the market trends.	No

60	Chourmouzis Panagiotis kai SIA O.E.	Retail	Panagiotis	Chourmouzis	www.safesales.gr	Safesales Company Profile/ Mission and Vision At Safesales, our mission revolves around providing high-quality service with quick deliveries. We are committed to offering safe, loyal products, and maintaining fair behavior in all our dealings. Our vision is to be a leading retailer and wholesaler, trusted for our commitment to quality and reliability. History Founded in 2011, Safesales has shown remarkable growth and resilience. In the last three years, we have expanded significantly, moving into new offices, a new warehouse, and opening a new store. Spanning a total area of 600m², these new spaces symbolize our growth and dedication to better serving our customers. Products and Services Safesales operates in both retail and wholesale segments. In retail, we offer a wide range of consumer electronics, outdoor products, cameras, surveillance products, and kids toys. Our wholesale division, known as Diversity, extends these offerings to businesses looking to succeed with quality technology products. Our subsidiary, Tiny Cocoon, specializes in providing families with high-quality toys, fostering joyful and educational experiences for children. Target Market Our target markets are as diverse as our product range. Safesales appeals to young, tech-savvy individuals, while Tiny Cocoon is dedicated to families seeking quality and safe toys for their children. Diversity caters to businesses aiming for success with top-notch technology and equipment. Achievements Starting with limited resources, Safesales has grown into a robust team of 10 dedicated professionals. This growth is a testament to our commitment, hard work, and the trust our customers place in us. Future Plans It is our vision to expand the Tiny Cocoon brand across multiple markets.	Company Activities At Safesales, our activities are centered around creating an exceptional customer experience through a diverse range of products and services. In the retail sector, we actively engage with the latest trends in consumer electronics, outdoor gear, and surveillance technology, ensuring our customers have access to the newest and most reliable products. Our kids' toy brand, Tiny Cocoon, focuses on curating a selection of toys that are not only entertaining but also educational and safe, fostering a healthy development environment for children. In the wholesale arena, under the banner of Diversity, we partner with businesses to supply them with cutting-edge technology and quality products that drive their success. Beyond sales, we are dedicated to providing top-notch customer service, including after-sales support and expert advice, ensuring a seamless shopping experience. Our team frequently participates in industry expos, community events, and tech fairs, staying connected with the market and our customers' evolving needs. This active involvement in various aspects of the retail and wholesale industry underlines our commitment to excellence and constant growth.	No

62	Mr.Paper	ΧΟΝΔΡΙΚΗ ΠΛΑΗΣΗ ΜΕΛΑΝΗΣ ΚΑΙ ΧΑΡΤΙΟΥ	ΛΑΜΠΡΟΣ	ΠΑΠΙΑΣ	mrpaperimport@gmail.com	In 2014, Mr.Paper was founded with the belief that toner & inkjet they shouldn't cost more than your printer. It was found that a high product could be offered quality without a high price invoice. In fact, the high quality product Mr.Paper is selling for 30-80% less than that of brands. When you buy Mr.Paper ink or toner, you can count on compatible and remanufactured high-quality ink cartridges. Every Mr.Paper product that arrives at your door is made to order with strict ISO 9001/2000 standards. And yet the quality speaks for itself of in excellent-looking prints.	The company's research and development team discovered that they could offer products of superior quality without compromising on affordability. This breakthrough allowed Mr.Paper to position itself in the market as a provider of high-performance toner and inkjet cartridges at significantly lower prices compared to established brands. Mr.Paper committed to delivering products that are 30-80% more cost-effective than those of well-known brands. This competitive pricing strategy aimed to make top-notch printing materials accessible to a wider audience, ensuring that quality was not a luxury but a standard expectation for all consumers. When customers choose Mr.Paper for their ink and toner needs, they Publishing Company, Digital Media	No
